

Riley Shimp

Experience

Software Engineer Intern | HealthSaaS

Portland, OR | June 2022 - Now

- Contributed to team sprint planning and project meetings.
- Formulated optimal solutions through extensive research into relevant technologies, existing code base and open source libraries.
- Resolved issues related to cloud computing, API design and front-end UI engineering.
- Worked on new products and updated functionality of existing software systems.

Projects

[Worldwide Bulliez.com](#) : [GitHub](#)

A React web app built for a dog breeder to showcase the current puppies and studs available. Customers can email the owner directly from the website via a Contact Page that utilizes the EmailJS interface.

Tools: React, JavaScript, CSS, Bootstrap, EmailJS

Pierres Treats: [GitHub](#)

MVC web app built with C# to help a bakery manage its inventory of treats and flavors with a database. Users are able to register an account and add and edit lists of treats and flavors in the database.

Tools: C#, MySQL, Entity Core, Identity

Education

Epicodus | Certificate | Web and Mobile Development | Remote | January 2022 - June 2022

- 27 week full-time coding bootcamp with 800+ hours of full-stack web development.
- Built 50+ projects with a variety of languages, tools and technologies: RESTful APIs and relational databases.
- Utilized remote collaboration tools such as VSCode LiveShare, Google Meet, Zoom and Discord.
